

Stand Out From the Accounting Crowd!

Set yourself apart from your peers in accounting and finance by obtaining your CMA® credential. Earn more money, maintain better job security, and advance in your career by joining the 36,000-plus CMAs working in organizations around the globe.

Whiteboard CMA Review offers an instructor-led, webinar based CMA exam preparation course. The centerpiece of our offering is the Institute of Management Accountants' (IMA®) CMA Learning System (CMALS), a comprehensive program that includes textbooks and online practice tests. The Whiteboard CMA Review course features the popular Go to Webinar software and Ning social network platform to let you review class material and work with your classmates on your terms and schedule. This innovative approach combines printed materials and online components with the expertise of an instructor and the discipline of a classroom setting.

Build Knowledge and Strengthen Your Skills

While the primary focus of this course is to prepare individuals for the CMA exam, the course is also an excellent continuing professional development tool to help individuals advance their career in accounting, finance, and business management.

- **A qualified instructor with business and educational experience** to reinforce key points and keep you on track for success.
- **A peer network** to encourage you while learning in a group environment.
- **A flexible, online learning environment** with classes recorded for additional support and a web-based discussion community to support learning between classes and build lifelong relationships with your CMA review classmates.

"The CMA has given me a tremendous amount of value. I've been able to advance my career because that knowledge translates into benefits for the companies I work for."

Patrick Pollock CMA, Chief Operating Officer, Genesis Systems Group LLC
